

Home Inspection Services for Real Estate Professionals

Your client has placed their trust in you to help them make the right choice in selecting their first or next home.....Let us help you make sure that home is termite-free.

- We have been serving the Wichita area since 1971 with the highest-quality service at a fair price.
- Member of the Kansas Pest Control Association and the National Pest Management Association.
- All of our Technicians have been certified by the State of Kansas Department of Agriculture as Commercial Pesticide Applicator.
- We continuously train our technicians for review, updating technology, and re-certification.
-

Purchasing a home could be one of the biggest investments most people will make in their lifetime. Betts Pest Control professionals have the qualifications, knowledge, and desire to help protect that investment.

Photos of any termites or termite damage found and a copy of the inspection report will be emailed to you.

We work with many new home builders and Real Estate Agents in the Wichita area, and are a trusted name in termite control. Contact us at 316-943-3555 to schedule a termite inspection.
